PORTABLE AV SOLUTIONS

AV Presentation System

Boston Light & Sound (BL&S) has been designing and installing presentation systems for nearly 40 years. Our **portable presentation system** makes it easy to give presentations in spaces that lack built-in presentation capabilities or were designed for other uses. Corporations, educators, hotels, and houses of worship that frequently give audio and video presentations in multiple locations choose this plug-and-play option.

Specifications:

- (1) 6200 Lumen NEC projector (1920x1200 pixels per inch)
- (1) Portable Da-Lite 9x12' Pull Up matte white screen
- (1) Da-Lite universal projection cart
- (2) QSC powered loudspeakers with stands
- (1) Soundcraft audio mixer
- (1) Shure Wireless microphone system
- (1) Set of connection cables
- (1) Set of carrying cases

Options:

- Portable Hearing Assist System
- Audio for presentation source

For more information about portable presentation systems, contact Jan Jones, CTS, Project Management & Sales, at 617.787.3131, ext. 119 or jjones@blsi.com.

Applications:
